

Dear Chairman,  
Please postpone the June 2 hearing on tv ownership. There has not been enough public hearings. I am frightened about the potential for monopolization of media, as has already happened with radio deregulation, especially with clear channel. The FCC needs to hear as much from consumers as from media owners. Too much control of stations in the hands of fewer owners is a direct threat to democratic freedom of speech and expression of varied ideas.  
Sincerely,  
Thomas Rosbrow
